

I am concerned about the LPFM stations taking priority over the current FM translator service. I am a daily listener and supporter of K-Love radio as many of my friends and family are. Without K-Love on 91.9FM I would not be able to listen to current Christian contemporary music. It is in my interest and the public to maintain the current FM translator service to provide alternatives to rock and country music. Please do not allow LPFM stations to take priority over current FM service. Thank you.
